The Mission of the Murphy Auto Museum is to collect, preserve, exhibit and interpret the history and heritage of the American automobile. We celebrate the automobile and educate the general public, students and enthusiasts regarding the role of the automobile in the Tri-County area.

The museum currently has over 90 vintage and classic vehicles on display from 1903 to present day, contained in a 30,000 square foot museum space. In addition to the vehicles on display, the museum also has quarterly exhibits featuring different marques which feature borrowed automobiles from other museums, or visiting cars from private collectors.

The museum is also home to the Gold Coast Modular Railroad Club which operates a working 1,800 square foot model railroad. With over 26 scale miles of track, the trains are beautiful to watch.

Please visit the museum's website for information regarding current and upcoming exhibits. The museum is open every weekend from 10:00 - 4:00.

The Murphy Auto Museum is a 501c3 organization.

MURPHY AUTO MUSEUM MEMORIAL CAR RALLY HONORING JERRY MAGNUSON

October 8, 2016

RALLY DETAILS

The rally will take its participants on a beautiful drive through Ventura County's backcountry. Each car will have a driver and a navigator. A rally map will be given to the navigator at the start of the rally and a poker card will be given at each checkpoint. Lunch will be served at a stopping point along the rally route, and rally participants will end their day at a festive after rally party at The Murphy Auto Museum. Fun prizes for the best poker hands. The rally is open to the first 50 cars. Sponsorship levels are shown below.

Jerry Magnuson was born on August 8, 1939 in Eaton, Colorado. Raised on a farm with his sister Sharon, he began his life long passion for building dragsters, helping his dad build their first dragster in the barn. In the mid 1960's, he struck out for California, taking a position with Dan Gurney's All American Racers. He traveled with the race teams and crewed at the Indy 500. He soon struck out on his own and began designing his own superchargers. He was passionate about speed. For over 40 years Jerry's company, Magnuson Products, created and built superchargers for a worldwide market, from tanks to motorcycles, street rods to luxury automobiles. During that time he also fabricated show hot rods with his wife, Maureen. In 2010, his 1932 Ford street rod, "Magnatude," swept the awards for America's Most Beautiful Street Rod. His interests also included miniature ship building. He was the first president of the Model Ship Modelers Association of Southern California and he was responsible for the extensive Marple Miniature Ship Collection being secured by the Ventura County Maritime Museum. Jerry Magnuson passed away on March 1, 2015.

Jerry was an entrepreneur, visionary, talented designer, fabricator and a true hot rodder through and through. The Murphy Auto Museum is honored to pay tribute to this remarkable man and to showcase his legacy and talents.
